# Greetings to the Graduates

The pomp and ceremony of convocation exercises formally mark an important life transition for you, our graduates. Surrounded by proud families, friends, teachers and mentors, you may now move forward with confidence, having earned our admiration and praise.

Each of you chose to follow a rigorous intellectual path and each has proved worthy. Today, you mark an important milestone in your life while we, your community, mark an important one in ours. One hundred years ago, the University of Alberta was founded on a scrubby piece of riverbank by men and women who believed this province should be built on a foundation of knowledge.

At that time, our founding president, Henry Marshall Tory, promised that the knowledge within these walls would not remain here, but would flow forever outward in service to our community. Today, you join more than 200,000 University of Alberta alumni worldwide in fulfilling that promise.

---

Dear 2007 Graduates:

Congratulations to all of this year's graduates as you celebrate your achievements and move forward to embrace new experiences.

From the successes and milestones you reach to the challenges and uncertainty you will face – learning will be your constant companion. Whatever it is you choose to do in your life, let it be rooted in the desire to transform all of the knowledge, wisdom, and skills you've acquired into making a positive difference in the world.

Follow your passion, make your own mark. Lead with your own voice and inspire and benefit others through your work. This is what an education is truly about.

## Greetings from Faculty and Staff

Universities began as small collections of scholars who worked together to preserve and advance knowledge. Students came to study with them and, in due course, an administrative structure arose to provide system and recognition for those studies. This ancient structure is preserved at the University of Alberta, with the faculty and the students providing the core of the University's purpose: teaching and the advancement of knowledge.

Since those first classes back in 1908, our community has grown beyond the borders of Alberta to encompass the world in one global community. Learning to live peacefully and prosperously in this community will require leaders and citizens of vision, commitment and drive. More than ever, the world needs leaders and citizens like the people you have become.

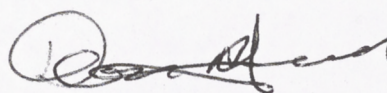

While today may seem like an ending, it is not. Today is a beginning, a first step along a new path. You will continue to grow, to learn and to contribute. You will also continue to be a life-long member of our University of Alberta community.

Welcome and Congratulations.

Eric P Newell, O.C., LLD (Hon)  
Chancellor

I applaud this year's University of Alberta graduates. You are fundamental to building a stronger Alberta and are role models for future generations considering or entering university. My hope is that each of you will succeed in doing something you genuinely love, as this is where you will do your greatest work and feel the most fulfilled. Be empowered to seek out opportunities in life, and to create them as well. Finally, I encourage you to maintain a healthy curiosity about the world around you and the role you can play in it.

Honourable Doug Horner  
Minister of Advanced Education and Technology

The faculty and staff congratulate you, the graduates, on the successful completion of your present studies which is recognized by the degrees to which you are admitted today. We hope your present knowledge provides a sound base for an education which will continue throughout a rewarding life. To quote Honorary Degree Recipient Tommy Banks: "Try to be a good person. You will be amazed how rewarding it is."

*Congratulations from the Faculty and Staff!*

## *Honorary Degree Recipient*

### *Wilton Littlechild*

A pioneer of the global indigenous rights movement, Mr Wilton Littlechild is a University of Alberta alumnus with a masters' degree in physical education and a degree in law. He is an inspiring role model and an internationally recognized voice on a wide range of economic, social and legal issues.

A Canadian Cree, Mr Littlechild was the first Indigenous person appointed Queen's Counsel by the Alberta Law Society, and the first Treaty Indian in all of Canada to serve as a Member of Parliament, a role which he held from 1988 to 1993. He served on several senior committees in the House of Commons and as a parliamentary delegate to the United Nations. He subsequently organized a coalition of Indigenous Nations that sought and gained consultative status with the Economic and Social Council of the United Nations.

Chosen as one of only 16 dignitaries to serve as an independent expert on Indigenous issues as part of the United Nation's Permanent Forum, he was subsequently appointed as UN Forum Rapporteur. A gifted communicator, Mr Littlechild has represented Indigenous peoples at the United Nations since the 1977 World Council of Indigenous Development. He also served as a member of the legal team that travelled to the British High Court in London seeking to prevent the repatriation of the Canadian Constitution until Aboriginal and Treaty rights were protected and entrenched.

An equally accomplished swimmer, baseball player and hockey player who won ten awards as Alberta Athlete of the Year, Mr Littlechild was inducted into the Indigenous Sports Hall of Fame in 1996 and the Canadian Native Hockey Hall of Fame in 1999. He organized an Indigenous Youth Conference at the Calgary Olympic Games, served as a member with Special Olympics International, and has been a powerful advocate of sports programs for athletes who are mentally and physically challenged.

One of the founders of the North American Indigenous Games, he continues to work on the World Indigenous Nations (WIN) Games. For this work he was awarded the International Gold "Medaille d'Excellence" as Laureate for Sports in Geneva, Switzerland. A member of the Order of Canada since 1999, he was also named in 2004 as one of the outstanding intellectuals of the 21<sup>st</sup> century.

The universal respect that Mr Littlechild commands among indigenous peoples and within the international community is witness to his consistent and principled statesmanship over several decades. A man of courage and integrity, he continues to give unstintingly of his time and energy so that future generations might live a better life.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Wilton Littlechild:*

***The Wisdom of the Cree of Canada: a book of healing for the human heart.***  
Calgary, AB: The Alberta Foundation, 1994.

*This is a copy of the leather bound special edition which is the culmination of a five-year "spiritual odyssey of the original heritage of the myths, legends, folklore, wisdom, medicine, dreams, songs, visions, healing joy and collected knowledge of the Neyiyawak, Woods Cree, Maskikowak, Swampy Cree, Anishini, Northern Cree, Plains Cree, Moose Cree Rock Cree and other 'Kristineau'." It is based on narrations of Cree Elders from the Rockies to James Bay and beautifully illustrated by Nitsiitaipoi, Henry Standing Alone. A deeply inspirational addition to the Library's strong Aboriginal collection.*

# *Congratulations* *Honorary Degree Recipient*

## *Sheldon Bowles*

Mr Sheldon Bowles is a successful entrepreneur, a *New York Times*, *USA Today*, *Business Week* best selling author, and noted international speaker. He began his business career at 12 as a newsagent running a crew of 15 carriers while his father spent weekends straightening out news agency finances. This taught Mr Bowles the value of having great partners—a practice he follows to this day. While at university he started Scotia Painters, a student house painting company. A stint as editor of his university newspaper landed him a job with the *Winnipeg Free Press* where he covered stories in Europe, North America and Asia, before becoming Business Editor. He wrote for *The Globe and Mail* in Toronto, *Time* magazine, and was thrilled to have a byline in *The Times* of London. He also worked regularly as a commentator on Canada's national radio, CBC.

Senator Douglas D Everett encouraged him to leave his journalism career for Royal Canadian Securities where Mr Bowles became a vice president, and then president and CEO of Domo gas, a Royal Canadian Securities company. The team of Everett and Bowles built that company into one of Canada's largest independent retail gasoline chains based on a vision of elevating service through raising the self esteem and motivation of employees. At Domo Mr Bowles learned the excitement of business, and the reward that flows from creating raving fan customers. He became a shareholder in Domo in 1987, which allowed him to 'retire' at 45.

After leaving Domo, he grew restless, retired from retirement, and with three partners turned a small manufacturing plant into a multimillion-dollar business. Today, in addition to manufacturing, Mr Bowles has interests in a recycling and waste-hauling business and a document storage and high security shredding company. He is an Associate of The Exchange Consulting Group, a board member of The Nature Conservancy of Canada (Manitoba) and a member of the Advisory Council of the Institute for the Humanities at the University of Manitoba and the advisory board of the Royal Winnipeg Ballet. He is the Chairman of Precision Metalcraft Inc and serves as a director of several private companies in Canada and the United States. He is a member of the Young Presidents' Organization (YPO) "graduate" groups, the World Presidents' Organization (WPO) and the Chief Executives' Organization (CEO).

When not pursuing business opportunities Mr Bowles shares his hard-won knowledge of what works and what doesn't with audiences around the world and in his books *Raving Fans*, *Gung Ho!*, *Big Bucks!*, *High Five!*, all co-authored with Ken Blanchard, and now, with Richard and Susan Silvano, *Kingdomality*. A transformational educator, his emphasis on personal value and self confidence resonates with audiences both within and distinctly outside of the business sector.

His contributions to the world of learning and leadership have left an indelible mark.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to the Mr Sheldon Bowles:*

***Stampede:*** Winnipeg, Aug 9-16, 1913.

*Inspired by rodeo cowboy Guy Weadick, and sponsored by local businessmen HC McMullen, George Lane, AE Cross, AJ McLean and Pat Burns, "Stampedes" were held in Calgary in 1912, Winnipeg in 1913, and Toronto in 1914. Revived in Calgary after World War I in 1919 with a "Great Victory Stampede," these annual rodeos merged with the Calgary Exhibition Company in 1923 to offer a combined event. This delightful, branded leather souvenir album of the 1913 Winnipeg rodeo contains over 70 photographic postcards which are an important testament to the Stampede Company's early migrations. Ephemeral pieces like this tend not to survive but when they do their presence in already strong subject collections adds a fresh dimension.*

# Congratulations Graduates

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

## *Honorary Degree Recipient*

### *Dr Robert Westbury*

It has been more than 40 years since Robert Westbury worked his way through St Francis Xavier University by playing saxophone in a Glenn Miller cover band. Since that time he has become an outstanding leader in education and in the private sector. It is, however, in the non-profit sector that he has truly made his mark.

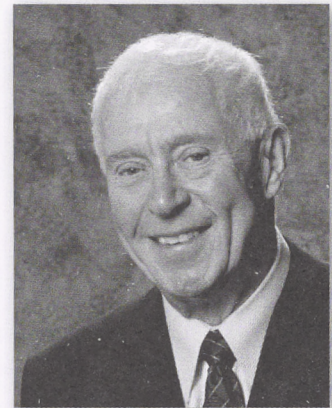

He has been an indefatigable advocate of the arts, the environment, and education for many decades. He has made a lasting contribution to the quality of life in the Capital Region and the Province of Alberta as a whole. His powerful leadership and communication skills have made him the 'go to' person whenever a cause that will benefit the community is in need of a champion.

Dr Westbury received his undergraduate training at St Francis Xavier University, his MEd from the University of Oregon and his PhD from Florida State University. His career in education includes being the Director of Curriculum for the Edmonton Separate School Board; and the founding President of the SEEDS Foundation. He moved from the education sector to the private sector and was Vice President, Corporate Relations and Vice President Environmental and Public Affairs with TransAlta Utilities Corporation from 1982 until 2002. When he retired from TransAlta he joined Grant MacEwan College as Vice-President of Development.

Recently, he has once again left retirement to direct the community investment efforts of the TELUS Corporation. He continues to take on new roles in a variety of community activities, serving on a number of boards, foundations or advisory groups. His efforts have not gone unnoticed. Dr Westbury received the Queen's Jubilee Medal in 2003, and was named one of Alberta's 50 most influential people in 2003 and 2004 by *Alberta Venture*. In 2005 he received the Centennial Medal and the Alberta Star of the Millennium Volunteer Award.

Currently, he is Executive Chair of the Alberta Centre for Child, Family and Community Research. He is also the President of Context & Contacts Inc; a Member of the Conference Board of Canada; Chair of the Canadian Manufacturers and Exporters (Alberta Division); the Western Canada Lottery Corporation; and the Expert Panel on Health (Alberta). He served as the Chair of the organizing committee for the 2004 Juno awards in Edmonton. One of his most visible contributions to the creation of a vibrant community includes his role as a principal organizer in the raising of \$9 million for the Fringe Festival TransAlta Arts Barns.

Robert Westbury is a true catalyst, a unique, powerful and compassionate voice in support of Alberta, the arts, children, education and the environment.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to the Dr Robert Westbury:*

***Hawthorne, Nathaniel. A Wonder Book for Girls & Boys.*** Boston: Houghton, Mifflin & Company, 1892.

*Written by American author Nathaniel Hawthorne in 1852, Wonder Book is a retelling of six ancient Greek myths in a volume for children. Hawthorne modernized and rewrote the stories in a readable style that proved universally popular with children. Houghton and Mifflin reprinted the book in 1892 with 60 designs by Walter Crane, including 19 colour plates. The coloured plates are especially beautiful, and they leave a vivid impression of the charm and mystery of the classical fables. Hawthorne made a remarkable contribution to the development of a literature for children, which makes Wonder Book a fitting selection to honour Robert Westbury's diverse achievements and especially his interest in children's causes.*

# Congratulations Graduates

### *Dr Norbert Morgenstern*

Dr Norbert Morgenstern has changed the face of geotechnical engineering as it is taught and practiced in Canada and beyond. Recognized as one of the world's pre-eminent civil engineers, his achievements as an educator, researcher and consulting engineer are internationally renowned.

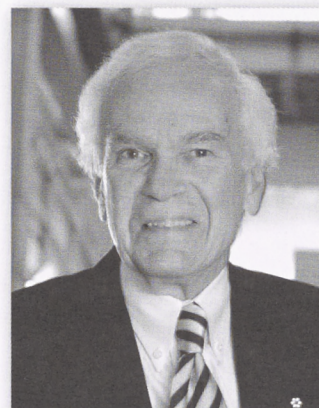

Professor Morgenstern was born in Toronto on May 25, 1935 and graduated from the University of Toronto in 1956 with a Bachelor of Applied Science in Civil Engineering. He was awarded the Athlone Fellowship for postgraduate studies in the United Kingdom and after a short period in professional practice, Norbert Morgenstern departed for London to study Soil Mechanics at the Imperial College of Science and Technology at the University of London.

The scope of his consulting experience involves projects in over twenty countries and includes dams, landslides, foundations (highways, bridges, and buildings), pipelines, underground excavations and offshore geotechnical projects. He is a Fellow of both the Royal Society of Canada and the Canadian Academy of Engineering, and has served as President of the International Society for Soil Mechanics and Foundation Engineering and the Canadian Geoscience Council. He is a Foreign Associate of the US National Academy of Engineering, a Foreign Member of the UK Royal Academy of Engineering and, a Foreign Fellow of the Indian Academy of Engineering.

He has authored or co-authored more than 300 research publications on oil sands development, permafrost engineering, dams, mine waste management, progressive ground failure, landslides, and risk analysis. He was a member of the Expert Advisory Committee for the United Nations International Decade for Natural Disaster Reduction (1990-2000) and also served UNESCO as an expert advisor on strong motion seismology.

In recognition of his leadership of the Geotechnical Engineering Research Group, the title of University Professor was bestowed upon him by the University of Alberta in 1983. Like all great teachers, Dr Morgenstern is a master in his field who possesses a unique ability to inspire. His success as a teacher rivals his achievements in the physical sciences.

Although dams and bridges are designed to last for generations, some of Dr Morgenstern's legacies may also be found in the contributions of the students he has mentored—a new generation of leaders who are now making significant contributions to the field and to the global community in their own right.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Norbert Morgenstern:*

**Navier, Claude Louis Marie Henri.**  
**Résumé des Leçons de Mécanique**  
**données à l'École Polytechnique.**  
*Paris: Carilian-Goeury & V. Dumont, 1841.*

*This first edition was published four years after the author's death and contains lectures given by him at the Polytechnique in Paris. The style of his courses was influential for over a half a century and was built on the creative physics of his generation, liberally applied analytical mechanics, thus giving the civil engineer tools adapted to an industrialized age. Navier was noted for his remarkable abilities as an engineer coupled with strong political views on building an industrialized society for the advantage of all. He is often considered to be the founder of modern structural analysis.*

# Congratulations Graduates

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

### *(Alvin) Allen Benson*

An outstanding advocate for the poor and disenfranchised in Canadian society, Mr Allen Benson is at the forefront of a number of community capacity-building processes and structures locally, nationally and internationally. A member of the Beaver Lake First Nation who was raised with family and community values including generosity and compassion for others, he has led the development of many cutting edge programs for Aboriginal people, particularly in the areas of restorative and social justice, health, housing and homelessness.

As the Chief Executive Officer of Native Counselling Services of Alberta (NCSA), one of the largest and most diverse Aboriginal non-profit organizations in Canada, Mr Benson has grounded the work of the NCSA in innovative service delivery. He has advanced the cause of Aboriginal control of community-based research and he has also applied Aboriginal knowledge to current issues facing Aboriginal people. A former advisor to the Minister of Aboriginal Affairs in the New South Wales Government and a member of the executive committee for the 5th Healing Our Spirit Worldwide Conference, he works to achieve community-capacity building processes and structures to help Indigenous peoples to articulate and advance their visions for the future.

A recipient of the Alberta Aboriginal Role Model Award in Justice, he has served as an advisor to the Federal Family Violence Initiative, the National Community Justice Initiative and the Inner City Violent Crimes Task Force. Working at the forefront of Aboriginal Corrections, Mr Benson initiated the development of an Aboriginal Legal Defense Fund. He also negotiated the commencement of the first Aboriginal Healing Camps for federal inmates in Canada, implemented through the Stan Daniels Healing Centre, which remains one of the most successful Aboriginal facilities in the country.

As a trustee with the Edmonton Housing Trust Fund, he became the lead voice for the Urban Aboriginal Strategy. Under his leadership the NCSA offered the first Homelessness Prevention Program in Edmonton. He secured support for the construction and implementation of Cunningham Place, a 52 bed transitional housing project for homeless youth in Edmonton.

Mr Benson also led the creation of the Community Solutions to Gang Violence partnership with the Edmonton Police Service, an inclusive strategy designed to build community awareness and to prevent the recruitment of young people into gangs. In recognition of this pioneering work, he is called upon by conference organizers, city councils and other organizations across Canada and around the globe to help other communities apply the Edmonton model.

Mr Benson continues to challenge both himself and others to tackle the "tough issues" and develop innovative strategies and to address the complex issues facing individuals, families and communities. While much of his work has focused on Aboriginal people, he also works tirelessly to use his experience and knowledge to develop the necessary partnerships that will create substantive change in both Aboriginal and non-Aboriginal communities.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr Allen Benson:*

**McMaster, Gerald, and Clifford E Trafzer, eds. *Native Universe: Voices of Indian America*. Washington, DC: National Museum of the American Indian, Smithsonian Institution, 2004.**

*Native Universe was published by the National Museum of the American Indian to commemorate the inaugural exhibition themes at its magnificent new building in Washington, DC. It is a remarkable pictorial record with 300 illustrations that show the impressive richness of indigenous cultures and artwork. An eminent group of Native American leaders, scholars, tribal elders, artists, poets, and activists, contributed essays on the significance of contemporary and historical events from a Native American perspective. This unprecedented book offers a majestic tribute to Native American achievement, which makes it an ideal choice to honour the generosity, spirit, and achievements of Allen Benson*

# Congratulations Graduates

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

## Congratulations

# Honorary Degree Recipient

## Honourable A Anne McLellan, PC

Anne McLellan, lawyer, professor, politician was born in Hants County, Nova Scotia and grew up in the Annapolis Valley on a dairy farm that her family has owned for 200 years. Both her parents were politically active, her father in the local Liberal Party organization and her mother in municipal politics. She soon, became involved in the Liberal Party, both at home and at Dalhousie University, where she received degrees in political science and law. After earning a master's degree at King's College in London, England, she returned to Canada to teach law at the University of New Brunswick. In 1980, McLellan accepted a position in the Law Faculty at the University of Alberta, where she specialized in constitutional law, civil liberties, and human rights. She served in a variety of administrative roles, including Acting Dean 1991-92.

She began her first foray into politics in 1993, winning a seat for the Federal Liberal party for the Edmonton Northwest riding by a narrow 12 votes. Four successive extremely narrow election victories earned her the nickname 'Landslide Annie.' She was defeated in 2006, but not before earning a reputation for consensus building beyond partisan boundaries and becoming one of Canada's most respected and influential politicians.

She held some of the most difficult portfolios in Canadian politics; Minister of Natural Resources, Minister of Justice, Minister of Health, Minister of Public Safety and Emergency Preparedness and Deputy Prime Minister. As Minister of Natural Resources, she successfully navigated the troubled waters of federal-provincial energy relations. While Minister of Public Safety and Emergency Preparedness, she won the trust of the American authorities while building a security system that remained acceptable to all Canadians. She was, throughout her career, a strong advocate for western interests in the Government of Canada. Her work ethic, integrity and ability to bring people together enabled her to achieve results. Her achievements in politics have had tremendous impact at the local, provincial and national level.

Following her loss in the re-election bid to a fifth consecutive term in office, she took only a few months of time off for some rest. On May 12, 2006, she was appointed Distinguished Scholar in Residence to the University of Alberta at the Institute for United States Policy Studies. In April 2006, Anne McLellan joined the Liberal Renewal Commission as Chair of the task force on women and gender balance in politics. She has made an enormous contribution to Canada, Alberta, The City of Edmonton, and the University of Alberta. She continues to work unflinchingly towards the public good and to building a just society.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to the Honourable A Anne McLellan:*

***Velan, Dana. In the Garden. N.p.: n.p., 1994.***

*In the Garden is a stunning artist's book that celebrates the majestic and manifold beauties of nature. The artist expresses her insights and explorations in a mélange of exquisite collages, which include watercolour pencil drawings, lithographic prints, pastel sketches, printed cutouts, and hand-painted beads. The artist was inspired by Frances Hodgson Burnett's classic children's book, The Secret Garden, where the young protagonist, Mary Lennox, discovers the key to a walled garden and resolves to tend to it, but to keep her activities secret. In the Garden is a delightful tribute to creative life and its rejuvenating powers, which makes it a fitting selection to honour Anne McLellan and her love of gardens.*

# Congratulations Graduates

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

# *Congratulations* *Honorary Degree Recipient*

## *Sir Keith O'Nions*

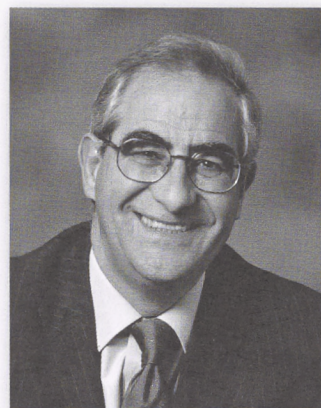

A distinguished alumnus of the University of Alberta, Sir Keith O'Nions is one of the world's most influential geoscientists. One of the pioneers of modern isotope geochemistry, he has undertaken groundbreaking research in ocean geochemistry, heat fluxes from the mantle, bonding in minerals, and the origin of the Earth's continents. His record of service to the scientific community is equally remarkable, as one of the founders of the European Association of Geochemistry, a council member for the Royal Society, Chairman of the Board of Trustees of the Natural History Museum and in several roles with the Natural Sciences Research Council.

His academic career has included positions at the Universities of Oslo and Oxford, followed by Columbia University and a Royal Society Research Professorship in Cambridge. While at Cambridge, he undertook new work in noble gas geochemistry and the tracing of fluids and primordial components in the earth's crust and mantle. Early on, he also recognized the potential of improvements in mass spectrometry. Several years later, as Head of Earth Sciences at Oxford, he pursued important new and interesting directions in terms of research techniques and instrumentation. He continues to lead in the application of new technologies to his areas of research. He has trained outstanding students, built world-class laboratories and provided wise counsel to people in many nations.

In recognition of his scientific accomplishments, he became a Fellow of the American Geophysical Union in 1979, a Member of the Norwegian Academy of Science and Letters in 1980, a Fellow of the Royal Society in 1983, an Honorary Fellow of the Indian Academy of Sciences in 1998, and an Honorary Fellow of the Royal Academy of Engineering in 2005. Sir Keith holds honorary degrees from the Universities of Paris, Cardiff, Glasgow, Bedford College, Herriot-Watt and Royal Holloway. He has been awarded the Lyell and Bigsby Medals from the Geological Society (London), as well as the Arthur Holmes Medal (European Union of Geosciences) and the Urey Medal (European Association of Geochemistry.)

A gifted communicator and leader, Sir Keith O'Nions is a first-rate scientist who has also made major contributions in the corridors of government. He was the Chief Scientific Advisor at the Ministry of Defense (United Kingdom), then Director General of the UK Research Councils, and is currently Director General of Science and Innovation in the Department of Trade and Industry. He received a Knighthood for his services to Earth Sciences in the 1999 Queen's Birthday Honours.

Sir Keith's love of first-order scientific problems is matched by clarity of thought and an extraordinary imagination. His career reflects a lifelong commitment to innovation, leadership and public service.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Sir Keith O'Nions:*

**Bunyan, John. *The Pilgrim's Progress*. New York: Limited Editions Club, 1941.**

*This splendid edition of The Pilgrim's Progress has three distinctive features that highlight key strengths of the Bruce Peel Special Collections Library: fine buildings, the artistry of William Blake and the John Bunyan Collection. The covers of the Cosway-style leather binding are bordered in gilt, and the front cover is set with an oval portrait of John Bunyan. Bunyan's classic is illuminated with twenty-nine mounted colour reproductive plates of William Blake's art. The book is magnificent in every respect and testifies to the capacity of human endeavour, which makes it an ideal selection to honour Sir Keith O'Nions.*

# Congratulations Graduates

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

## *PJ Perry Guloien*

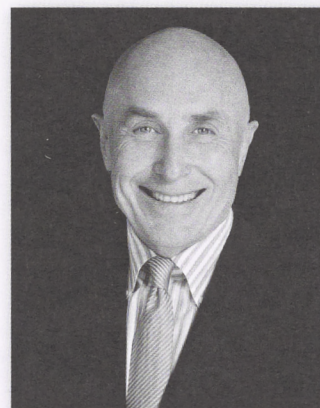

"If you don't live it, it won't come out of your horn," said jazz icon Charlie Parker. "They teach you there's a boundary line to music. But, man, there's no boundary line to art." To commit oneself to contemporary jazz music is to embark on a journey that requires a knowledge base similar to that of the most skilled surgeon and the conscious awareness of a Zen priest. It is a practice, a discipline and an art, and to do it well, one has to commit completely or it simply won't be. The essence of jazz – improvisation – requires as much courage as it does skill and creativity, but it results in the ability to speak in the language of the human soul. One of North America's most brilliant conversationalists in that language is Mr PJ Perry.

The son of a jazz musician, PJ Perry developed his chops playing alto sax in his father's dance band at the age of fourteen. The pursuit of his art led him to play in Vancouver, Toronto, Montreal, London, Berlin, New York and Paris, where he earned a reputation alongside the best in his genre.

PJ Perry is recognized by critics, colleagues and listeners as one of North America's premier saxophonists. Proof of his talent is in the company he keeps on stage, with names such as; Dizzy Gillespie, Woody Shaw, Michel LeGrand, Slide Hampton, Herb Spanier, Bobby Shew, Frasier McPherson, Ellis Marsalis, Pepper Adams, Kenny Wheeler, Tom Harrell, The Boss Brass, and Tommy Banks.

Mr Perry is the recipient of a 1993 Juno Award for Best Jazz Recording for his album "My Ideal", and received Jazz Report magazine's Critic's Choice Award for Best Alto Sax for a record seven years from 1993 to 1999. Perry was engaged by Tommy Banks to play in Edmonton in the late 1960's.

When not on tour, Mr Perry can be heard playing with the Edmonton Symphony Orchestra, at Edmonton's local jazz hub, the Yardbird Suite, and at many civic special events. He is committed to teaching and bringing jazz to the community. He has developed a series of jazz concerts for the uninitiated at Ritchie United church. Mr Perry has been playing his saxophone and "speaking in jazz" for more than four decades, and his music is still contemporary. His 2006 Juno nomination for best traditional jazz recording shows that his work remains compelling and relevant to critics and to listeners. He continues to play and tour around the world, and we are very fortunate that an artist of his ability chooses to make Edmonton his home.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr PJ Perry Guloien:*

**Crowder, Henry. *Henry-Music. Poems* by Nancy Cunard, Richard Aldington, Harold Acton, Water Lowenfels, and Samuel Becket. Paris: The Hours Press, 1930. Limited edition of 100 copies.**

*Crowder was an African-American musician working in Paris who met Nancy Cunard in 1928. Their relationship included Crowder assisting Cunard at her small publishing house, The Hours Press. Nancy Cunard printed works by members of the modernism, surrealist and dada movements and she was the inspiration for several of the noted authors of the period. This book includes six poems set to music by Crowder. It is signed by the author and includes a handwritten dedication to the post-impressionist painter, Augustus Johns, "an artist that belongs very much to us all. A real genuine person. I appreciate him very highly and honestly." This extremely rare book is a key publication of the Hours Press holdings in the Peel Library.*

## *Honorary Degree Recipient*

### *Dr Maria Klawe*

Dr Maria Klawe is an outstanding role model and outspoken advocate for women and minorities pursuing careers in science. She is a brilliant thinker and problem solver, and is recognized as one of the top theoretical computer scientists in the world.

In 2006, Dr Klawe began her tenure as the fifth President of Harvey Mudd College (HMC) in Claremont, California. She joined HMC, after serving as Dean of Princeton University's School of Engineering and Applied Science. From 1988 to 2002 she served in a variety of capacities at the University of British Columbia including Vice President of Student and Academic Services, Dean of Science and Head of the Department of Computer Science. Prior to UBC, Klawe spent eight years with IBM Research in California, and two years at the University of Toronto. She received her PhD and BSc in Mathematics from the University of Alberta. Dr Klawe has made significant research contributions in several areas of mathematics and computer science including functional analysis, discrete mathematics, theoretical computer science, human-computer interaction, gender issues in information technology, and interactive-multimedia for mathematics education.

She was the founder and director of the Electronic Games for Education in Math and Science (EGEMS) project, a collaborative project on the design and use of computer games in enhancing mathematics education for grades 4 to 9. This research was extended under the auspices of the NSERC-IBM Chair for Women in Science and Engineering that she held from 1997 to 2002, and the SWIFT (Supporting Women in InFormation Technology) project on how to attract and retain women in information technology careers. She is currently Chair of the Board for the Anita Borg Institute for Women and Technology in Palo Alto, California, a non profit organization that provides resources and programs for industry, academia and government to help retain women leaders in high tech fields. Her current research focuses on the development and use of multi-modal applications to assist people with aphasia and other cognitive impairments

She has served on many boards and advisory councils, including the ACM Council, the Board of Trustees of the American Mathematical Society, and the Board of Computing Research Association. Maria was elected as a Fellow of the Association of Computing Machinery in 1995, and received the Vancouver YWCA Women of Distinction Award in Science and Technology in 1997. Her awards in 2001 included Wired Woman Pioneer, Canadian New Media Educator of the Year, BC Science Council Champion of the Year and an honorary doctorate from Ryerson University. She is also a dedicated watercolor artist, runner, kayaker and electric guitarist.

Dr Maria Klawe is a visionary, a person who has made the connection between science and humanity.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Maria Klawe:*

**Albers, Josef. *Interaction of Color*. New Haven: Yale University Press, 1963.**

*Josef Albers (1888-1976) was a German artist, mathematician and educator whose work with the Bauhaus school in Germany and Yale University in the U.S. formed the basis of the most influential and wide spread art education program of the last century. This is one of a limited edition of 2000 copies and presents his major theory that the perception of colours is governed by an internal and deceptive logic. The 80 plates are protected by tissue to prevent offsetting of the colour and were printed using a combination of silk-screen, four colour separation and photo-offset processes. This seminal work is an essential reference source for art students.*

# Congratulations Graduates

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

## *E Hunter Harrison*

Railroads have played a central role throughout the history of western Canada. They have tied our country together politically and have been a critical element in our growth and prosperity. As President and Chief Executive Officer of the Canadian National Railway Company (CN), now Canada's largest railway, Hunter Harrison has made a major contribution to the economic vitality of western Canada.

One of the most experienced and knowledgeable railroaders in North America, he is also a highly skilled communicator possessing both a strategic mind and a commitment to excellence. He has placed a high priority on mentoring opportunities and succession planning, introducing the concept of a "Railroad MBA" requiring senior CN executives to spend considerable time in operations. Before becoming President and CEO in 2003, he served as CN's Executive Vice-President and Chief Operating Officer for five years. Prior to joining CN, Mr Harrison had been President and Chief Executive Officer of the Illinois Central Corporation (IC) and the Illinois Central Railroad Company (ICRR), as well as a director of both companies, from 1993 to 1998.

Mr Harrison's railroad career began in 1963 when he joined the Frisco (St Louis-San Francisco) Railroad as a carman-oiler in Memphis while still attending school. He advanced through positions of increasing responsibility in the operations function, first with the Frisco, then with Burlington Northern after Burlington Northern acquired the Frisco in 1980. He then moved to the Illinois Central Railroad Company in 1989.

During his career with Illinois Central, Mr Harrison initiated the concept of scheduled service for freight shipments, maintaining a sharp focus on operational efficiency and asset utilization and achieving the best operating ratio in the entire North American rail industry. As CN's Executive Vice-President and Chief Operating Officer, he applied the same philosophy and methods, implementing an aggressive operating plan and refining scheduled service to produce industry-leading operating ratio and on-time performance results.

A visionary leader who embraces innovation, Mr Harrison has a reputation for thinking "outside the box." He serves as a member of the North American Competitiveness Council, whose mandate is to provide governments with recommendations on broad issues such as border facilitation and regulation, as well as the competitiveness of key sectors including automotive, transportation, manufacturing and services.

He is also a member of Canadian Council of Chief Executives and was named North America's Railroader of the Year by Railway Age magazine in 2002. In 2006, Mr Harrison received the B'nai Brith Canada Award of Merit, the Jewish community's most prestigious honour in Canada.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr E Hunter Harrison:*

***Canadian National Railways. Thirty-Two Scenic Views of Western Canada.***  
*N.p.: Canadian National Railways, n.d.*

*Published by the Canadian National Railways, this beautiful travel brochure is undated, but was probably printed in the 1920s. It has thirty two sepia photogravures that show iconic scenes from the Canadian Prairies as an enticement to would-be train travellers. Popular tourist stops are shown, including a lovely cabin scene at the Jasper Park Lodge and a breathtaking photo of Mount Edith Cavell. The brochure is a wonderful pictorial record of the way that railroads offered access and economic prosperity to the burgeoning communities of western Canada, and is therefore a fitting tribute to Ewing Hunter Harrison's achievements at the helm of the Canadian National Railway Company.*

# Congratulations Graduates

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

# History of Convocation

## Magna Congregatio

*In the eleventh century, a new vitality quickened all aspects of the civilization of Western Europe. The creative forces thus unleashed soon found expression in new institutions, and of these the university bids fair to be the most enduring. The modern university is the lineal descendant of the university of the Middle Ages. Its purposes and organization, even much of its ceremonial, are medieval in origin.*

The medieval university was originally called a *studium generale*, that is, a place of learning to which teachers and students from anywhere resorted. The first *studia* were at Salerno, Bologna, and Paris. These came into existence spontaneously and developed through the twelfth century as the needs of the time and their inner necessities dictated. In the thirteenth century these spontaneous associations crystallized into guilds or corporations endowed by Church and State with specific privileges which guaranteed the internal autonomy necessary for the vocation of study. To these corporations was increasingly applied the word *universitas* denoting the entire group of those responsible for the transmission of higher learning and the pursuit of knowledge.

By the beginning of the 14th century, two forms of university organization had appeared. At Bologna, primarily a higher school of canon and civil law to which came men experienced in ecclesiastical and secular administration, the control of the *studium generale* passed to the students; hence Bologna was a *universitas scholarum*. On the other hand in Paris and Oxford, whose dominant faculty was the Faculty of Arts, the *studium* emerged under the direction of a guild of teachers, a *universitas magistrorum*. Through its own officials, notably the chancellor (once symbol of external control and by now of internal autonomy), the guild of teachers developed its courses of instruction, administered its own affairs and admitted to its company only those who had met its intellectual standards. The University of Alberta stands in the tradition of Paris and Oxford.

Originally the goal of the medieval student was certification by the guild of teachers that he also was qualified to teach (the *licentia docendi*). With the passage of time the student's progress through the curriculum was marked by ceremonies which signified his successful attainment of a certain level (*gradus* or in modern language, degree) of competence. The Bachelor had completed his apprenticeship in the Faculty of Arts. The Master was now qualified to teach in that Faculty and was thus incorporated into the *universitas magistrorum*.

The Doctor was one who, having obtained the mastership, had successfully completed the curriculum of one of the "higher" faculties (in the Middle Ages, law, medicine, and theology) and was now qualified to teach in those faculties. Inevitably the degrees of the *universitas* did more than admit their holders to the teaching profession. They served the wider social purpose of demonstrating their holders' fitness to serve the entire medieval community.

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval *magna congregatio* of all faculties, is led by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods, and caps, once the sober, disciplined dress of secular clergy and teachers, declare in their various designs and colors the academic qualifications of the Faculty. The citations and presentations by the Faculty to the Chancellor attest to him and to society the degree of proficiency attained by the students of the University. There follows a visible and public act whereby the *universitas magistrorum*, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree bestowed. More, the formula, "I admit you" and the placing of the students' hands within the hands of the Chancellor and his associates, bind the students in the appropriate degree to the *universitas magistrorum*. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

The history of academic dress reaches far back into early days of the oldest universities. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University Coimbra wear gowns. In England, in the second half of the fourteenth century, the statutes of certain

colleges forbade "excess apparel" and prescribed the wearing of a long gown. It is still a controversial question as to whether academic dress finds its sources chiefly in ecclesiastical or in civilian dress. Gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as "academic." (The mortar board - the hard, square cap commonly used as academic headdress today - evolved from the softer, more flexible "square cap" introduced in England about 1490. It is named for the square board on a handle used by stone masons for holding the mixed mortar to be applied to walls.) Both Cambridge and Oxford have made academic dress a matter of university control to the extent of even its minor details and have repeatedly issued revised regulations. In Laudian days in Oxford it was prescribed that any tailor who departed from authorized design "even by a nail's breadth" in the making of any article of collegiate costume was to be punished by the vice-chancellor of the university.

Academic dress at the University of Alberta generally follows the prescription of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. See the Academic Dress page in this program for a detailed description of the academic dress at this institution.

In addition to the apparel worn by holders of degrees conferred by the University of Alberta, a collection of apparel specific to particular offices has also been developed. The President of the University wears a green gown faced with gold braid trim and lining and a black cap with a gold tassel. The Chancellor and Chancellors Emeriti wear gowns of teal blue with silver trim and black caps with silver tassels. The gowns of the senior officials bear an embroidered crest of the University. University Governors and Senators wear stoles bearing the crest of the University over their gowns: gold for Governors and green for Senators. The University Registrar wears a green gown with gold trim on the sleeves.

Graduates and staff of the University of Alberta who wish to purchase their own academic apparel are invited to contact the Assistant Registrar, Academic Awards and Ceremonies in the Office of the Registrar and Student Awards. *Acknowledgements: The University of Western Ontario, The American Council on Education.*

# The University Coat of Arms

## *Quaecumque Vera*

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto *Lux et Lex*; the words "University of Alberta" were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

**Shield:** a representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

**Crest:** a Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

**Supporters:** a pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

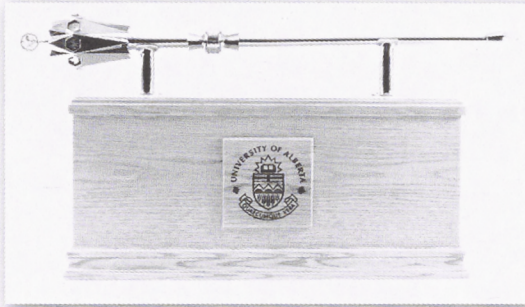

**Motto:** *Quaecumque vera* ("Whatsoever things are true," Philippians 4:8)

The arms are copyrighted and may not be used without permission of the Board of Governors. The name of the University is similarly protected.

# Mace and Ceremonial Chairs

## University Traditions

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. Michael Galbraith presented the Mace on behalf of his father on May 26, 1970.

Among its elements are the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto "Quaecumque Vera" ("Whatsoever Things Are True" Phil 4:8) encircles the staff. The Mace is made of sterling silver which was rhodium plated after the insertion of the various enamelled shields which make up its elements. A special electroplate process was used to apply 24 karat gold to other parts of the Mace.

It was intended that the Mace should be modern in appearance but with medieval origins. The preponderance of visual weight at the top of the staff and the rather complex section through the metalwork at this point are reminiscent of the use of the mace as a weapon, defensive or aggressive.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power - but the power of knowledge and the importance of the University in the community.

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded-leather back is carved the University motto "Quaecumque Vera" together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of an oak stand for the University of Alberta Mace and two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

In 2006, a fourth chair was donated in memory and honour of, Lois Elsa Hole, beloved Chancellor (1998–2000) and Lieutenant Governor (2000–2005), by Earl Evaniew, Sandra Kereliuk and their daughter Jennifer. This chair becomes part of the seating arrangements on stage, when the Lieutenant Governor or other high profile dignitaries attend the convocation ceremonies.

# Academic Dress

## Ceremonial Colors

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point.

Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

### Doctorate Degrees

'Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctors' hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on

the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

### Honorary Doctorates

Honorary Doctors of Laws (LLD), Letters (DLitt), and Science (DSc) wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.

If you can, please share this program with a companion. Then, if you do not take it home, please leave it (in good repair) on the table by the doors as you exit. This will help us ensure that someone else can use it on another day of Convocation, and subsequently conserve paper.  
Thank you for your assistance.
